THE BALANCED PROGRAM

Three 15 minute models on 7 major stock market indices are merged into one single position per index.
Each index receives the same allocation.
The maximum allowed net exposure (=leverage) is 2 times AuM but an investor can lower or raise this to suit his risk appetite. Performance needs to be adapted linearly. The program is of a very low trading frequency nature.

Fees are negotiable

ABOUT TSA-EUROPE

Founded in 2005 by Marc Verleysen.

TSA-Europe is a fully automated, systematic trading advisor that uses the price of the underlying asset as the only input for the model.

TSA-Europe has been elected as trading advisor by a mid-size German bank from 2007-2015 for Fx.

TSA-Europe was in the final four of a prestigious competition in Germany (2009) where 130 new strategies competed for a mandate from a multi billion euro hedge fund.

TSA-Europe has been elected by several start-up hedge funds and managed accounts managers to provide an FX trading strategy in a fully automated format
